## Why some students beat the competition?

In our 28 years of experience at ALLEN Career Institute, wherein more than 5.3 Lacs (till 2015) students have been taught by our classroom system, we have seen again and again how some students steadily distinguish themselves from others and in the last become highly successful in achieving their desired goals. Thousands of our students have made place not only among toppers in the very tough IIT-JEE or Pre-medical entrance examinations or KVPY or NTSE but also have become medalists in various International Science/Maths Olympiads.

We all recognize that some students will "make it" while others who are equally bright will not. Why is this? What are they doing differently? The successful students identify all essential aspects and put required efforts in each aspect.

One of the major pillars of ALLEN teaching methodology is its strong SYSTEM of TESTING in the diverse student group enrolled from India-wide; high results both in Ranks & Selections figures in competitive exams from ALLEN proves it right.

TALLENTEX is a unique exam developed by highly experienced academicians from our departments of JEE, Pre-Medical, Pre-Nurture and Career Foundation. All focused and sincere students will find TALLENTEX full of such benefits which will boost their academic competitive abilities & help them beat the competition.
